

Wonder Workshop Children's Museum Presents: Studio 8/13!

What is "Think Big?" It is our summer enrichment camp for students who are 8 to 13 years old.

What is the Wonder Workshop's mission? The mission of the Wonder Workshop is to promote education in the arts, sciences, and humanities. Our goal is to develop self-reliant children, families, and community members. Our hands-on activities and exhibits instill a desire for life long learning, recognizing our cultural diversity, and fostering creative potential.

What are the dates for this Enrichment Camp?

May 29 - June 1
June 4 - June 8
June 18 - June 22
June 25 - June 29

Monday - Friday from 8:30 to 11:30 am

**Where: At the Manhattan Art Center
1520 Poyntz Ave., Manhattan**

Each week day has a different theme that will be followed from beginning to the end of this camp. Students can be signed up for Mondays only, two to four days per week (but the same day throughout the 4 weeks) or all five days each week of this camp.

Cost:

1 day per week for 4 weeks = \$40
2 days per week for 4 weeks = \$80
3 days per week for 4 weeks = \$120
4 days per week for 4 weeks = \$140
5 days per week for 4 weeks = \$160

Limited part scholarships available (first come, first serve until funds are used up) **for students receiving free or reduced lunch at area schools.**

Themes for each day of the week:

Monday: Artful Journeys & Sensational Science

Tuesday: Photography

Wednesday: Documentaries

Thursday: Fishing

Friday: Nature patrol

Look below to read a description about the activities we have planned for each day.

For more information and to sign up please use our contact information above. We will provide you with our registration form that must be completed to be in this program.

There are limited part-scholarships available so call soon for more information about a scholarship.

Deadline: May 11, 2012

Mondays: Art and Science are the only activities we'll explore on this day. The first half of the morning will be devoted to an art activity and the second half of the morning will feature a science experiment. Each Monday will consist of new activities. Here are a few activities we plan to do: drum making, creating boats from recycled materials and racing them, art sculptures using recycled materials, mask creations, invention stations, making a cd in our recording studio, etc.

Have you ever made a bird house for your yard?

Perhaps inventing a new gadget is more your speed?

Tuesdays: Studio 8/13 teaches Photography that allows students to make a book on themes such as nature and historical buildings using digital cameras.

Using Photo Booth to create pictures is fun!

But getting out in the community and snapping a few shots is fun too!

Wednesdays: Studio 8/13 will walk students through the process of creating their own mini-documentary while working on a group project.

Ready, Set, Action!

This is what you'll hear

before the cameras start rolling.

Thursdays: Fishing is the name of the game on this adventurous day! Every time we head out to fish it will be to a different location in search of the big one!

We know where the

best fishing holes are and we will get our share of fish this year.

No Experience Necessary

Fridays: Hiking nature trails, getting a birds eye view of the Great Outdoors is what's in store. Looking at birds, insects, frogs, spiders, horses, fossils and what ever else comes our wa

In the woods something is always watching you, but can you see them?
